 **CONVENIENT**

 **EXTENDS
EQUIPMENT LIFE**

 **AGATEC** 

The level of excellence

KOMBO

SOMETIMES THE *best solutions*
ARE THE *simplest!*

The Kombo:
easy does it!

Keeps your equipment in
peak condition

The Kombo keeps it all together in one neat, *easy-to-carry kit*.

With the Kombo, the rod is clipped securely to the tripod, keeping it clean. You don't have to worry about mud or dirt getting inside the rod sections, which can scratch and damage the rod face. The carrying bag also protects the tripod and rod from scrapes and scuffs during transport.

SEPARATE PIECES:
a hassle

Stop
juggling your
equipment pieces
when you're
setting up or
moving around
the job site.

EASY TO USE
clip & zip

When you're done at the job site, it's a snap to pack up. Simply clip the rod to the tripod, zip it into the handy carry bag, and go!

All-in-one kit

A top hinged clip and lower compartment hold the rod in place. The pieces are easily removable from the tripod leg if needed.

THE KOMBO INCLUDES

Heavy-duty aluminum tripod
5/8-11 thread, flat head, 40-65"
13 ft. aluminum rod, 6 sections
available in inches or 10ths
Sturdy carrying bag

VERSATILE

*Use the Kombo with
any laser or optical level.*
